

# How to correctly recycle your rubbish

Englisch

## Residual and organic waste (refuse lock)

Polluted: cloths, paper  
Felt-tip pens, fabrics, tissues, carbon paper, fax paper  
Nappies, used toiletries  
Lightbulbs (except energy saving lightbulbs), music and video cassettes  
Toothbrushes, ceramics and porcelain, broken glass, bandaging products  
Dust, vacuum bags, ashes, cigarette butts  
Flower, bush and tree trimmings, lawn cuttings, foliage  
Leftover food, eggshells, tropical fruit peel, vegetables  
Single layers of kitchen paper or newspaper  
Plant-based bedding for small domestic animals  
Hair, feathers, tea leaves, coffee grounds, filter papers  
Potted plants (without the plant pot)

## Packaging (Yellow bin or bin bag)

### Metal packaging:

Aluminium trays and lids, drink cans, biscuit tins and tin cans  
Empty aerosol cans, metal lids and screw caps

### Plastic packaging:

Drink bottles, food containers, dairy product packaging  
Plastic bags and packaging foil, disposable cutlery and crockery (cardboard plates, plastic knives and forks, for example)

### Composite packaging:

Milk and juice cartons, cardboard packaging with plastic window  
Vacuum packaging (e. g. coffee packaging)

## Paper / Cardboard (Blue bin)

Books, envelopes, wrapping and packaging paper  
Newspapers, booklets, catalogues, paper boxes, cardboard boxes  
Brochures, writing paper, corrugated cardboard  
Paper or cardboard sales packaging

## Used glass (glass containers)

Glass bottles and other glasses  
WARNING: No ceramics or window glass here!

## Bulky waste

Furniture, large household items  
Garden accessories  
Large plastic items
